 - For activating and maintaining web site
 - For funding
- Mutual respect
 - Keep the independency and right of each society
 - Share the role of each society
 - Keep the honor of each other

Mourning for Prof. Akira Okada, MD

1978

To the Soul of Professor Akira Okada

Your sudden passing away is really striking and sorrow to all of us. We lost a brilliant star which had indicated the directions and times in the darkness.

You had to stay longer with us,
because you have been

such a good man,
a leading Professor,
a Great Surgeon,
an Advanced Researcher,
one of our intimate friends,
a kind Mentor and
a powerful leader

to all of us,
not even in Asia, but
to all over the world

The age of sixty nine
is not good enough to go away.
We are really sorry for that.
We all remember and appreciate
your great contribution and
influences to the related medical fields in Korea,
particularly in Pediatric Surgery and Nutrition.

We,
every one of us,
would express the most sincere sorrow,
condolences and sympathy
to Mrs. Utako Okada,
and the family,
and to all of his disciples.

Dear Professor Okada,
please,
have a long, good sleep
in heavenly peace forever.
We would always keep our mind
in the friendly memory of you.

With our ever-lasting love and respects.

On the Funeral Day for Professor Akira Okada,
August 21, 2007.
